ABOUT ME

Experienced Cloud Engineer, AWS Cloud Architect, and Full-Stack Developer with 3 years of experience designing and deploying scalable cloud solutions. Well-versed in AWS services including S3, ECS, DynamoDB, and VPC, with hands-on experience in CI/CD pipelines and DevOps practices. Known for a strong work ethic, attention to detail, and a commitment to continuous learning, with an interest in automation and emerging technologies to improve efficiency and deliver business value.

CERTIFICATION

Since 2022

AWS Certified Cloud Practictioneer

WORK EXPERIENCE

Cloud Engineer, AWS Cloud Architect & Full-Stack Developer
GEKABI Chub Cay, Berry Islands, BAMA
2022 – 2025,
- Designed and developed cloud-based applications to track utility usage and support data analysis, improving operational visibility and decision-making.
- Architected and implemented scalable AWS solutions across compute, storage, security, and databases (EC2, ECS, S3, DynamoDB, RDS, IAM), supporting automation and reliable backend systems.
- Built and maintained secure cloud architectures, increasing system efficiency and reliability through automation and optimized workflows.
